Materials

Solid ash, oak or walnut and fabric by Gabriel.dk ('Step' or 'Luna 2' and 'Obika Leather +').

Finishings

Wood finished with colourless matt varnish.

Custom

Arranged with the client.

Description

The GAGO chair honours the first aerial crossing of the South Atlantic realized by Sacadura Cabral and Gago Coutinho in 1922. Inspired by the shape of the aviator's helmet and with curved arms like the wings of a seaplane, the GAGO's upholstery rests on a platform of turned wood inspired in the hydroplane floaters, giving users the impression of taking off on an adventure. On its back is the inscription "1922, 8383 kms", recording this historic feat of the aeronautics. GAGO travels through spaces of familiar conviviality or metropolitan agitation, making each place memorable.
